Armada™
Electric gate lock

**Add that extra
level of security
to your entrance!**

How secure is your motorised gate, is it a soft target? With the **ARMADA Electric Gate Lock** fitted you'll never have to worry about it again!

The **ARMADA Electric Gate Lock** has been developed for both swing and sliding gates and interfaces seamlessly with the gate motor system, unlocking the moment the gate starts to open and locking securely when it closes again. It incorporates a key-operated barrel lock allowing for convenient manual override.

Features and benefits

- Robust, stainless steel construction for all weather and coastal installations
 - Designed for both motorised and manually operated gates
 - Activates by using your existing remote control
 - Unlocks just before the gate is opened and re locks when the gate closes
 - Bolt action ensures secure locking of double leaf, or single, swing gate systems
 - High volume capability so it is ideal for both residential and commercial, as either new or retrofit installations
 - Low force lock engagement ensures reliable operation even at the tip of a wide gate
 - Models available for swing gates and sliding gates in both left and right hand configurations
 - 12V DC operation with optional power failure protection (typically connect to battery supply of gate motor - 4A draw for maximum 5 seconds)
 - Instant security as lock automatically engages when gate is closed
 - Convenient manual override incorporating key operated barrel lock
 - Optional mounting box for easy installation onto gate frame
-

Technical specifications

ARMADA Electric Gate Lock

Operating Voltage	12V DC
Maximum current draw	4A @12V
Maximum pulse duration	4 seconds
Lock bolt depth	8mm
Operating temperature range	0°C - 45°C
Dimensions	Height: 270mm Width: 65mm Depth: 50mm
Weight	900g
Material	
Lock casing	Grade 304 stainless steel
Lock bolt	12mm Grade 304 stainless steel pin
Lock toe	Grade 316 stainless steel
